## BBA Students Undergo SPSS Training Program

July 3, 2025: **SPSS Training Program** was conducted for **BBA 6th-semester** students to enhance their quantitative research capabilities. Facilitated by **Assistant Professor Dr. Deepesh Ranabhat** and **Associate Professor Dr. Dayaraj Dhakal** from Pokhara University, the workshop provided proficient guidance on the Statistical Package for SPSS. The program focused on data entry, complex analysis, and hypothesis testing, efficiently bridging the gap between theoretical statistics and practical research methodology.

The session proved highly impactful, equipping students with essential tools for their research projects and professional internships.

## Juniors Host Farewell program for 8th-Semester Students

July 4, 2025: Junior batches organized a **Farewell Program** to honor the departing **8th-semester students**. The event served as an honor to the seniors' academic journey, leadership, and contributions to NAST community. Through cultural performances and speeches, students and faculty celebrated the bonds formed over the past four years.

Managing Director and Principal delivered inspiring addresses, encouraging the outgoing batch to carry the institution's values of excellence and integrity into the global workforce. This successful event not only honored the achievements of the seniors but also reinforced the strong spirit of mentorship and amity that defines the academic environment at NAST.

## MBA Students Conclude Successful Practicum Presentations

August 29, 2025: **MBA I Trimester** students delivered their **Practicum Presentations** in the course **Organizational Behavior and Human Resource Management**. Students presented ideas on workforce dynamics and institutional culture, synthesizing theoretical frameworks with real-world case studies. The presentations demonstrated the students' capacity to analyze complex HR challenges and propose strategic, data-driven solutions.

The event served as a vital platform for applying management principles to professional scenarios. This successful defense marks a significant step in the students' professional development and reaffirms NAST's focus on associating the breach between advanced management theory and contemporary industry practices.

## BBA 7th Semester Students Complete Internship Presentations

August 31, 2025: **BBA 7th-semester** students completed their **Internship Presentations**, marking the conclusion of their experiential learning phase. This defense allowed students to present practical findings during their three months' work in different financial corporations. By synthesizing academic theory with operational reality, they demonstrated an understanding of contemporary business practices and organizational challenges.

The session was enriched by external examiner **Mr. Hemraj Joshi**, Branch Manager of Kumari Bank, Dhangadhi. His guidance and encouragement provided critical industry perspectives, further, refining the students' career readiness.

## MBA III Trimester Students Defend MIS Project Work

September 1, 2025: **MBA III Trimester** students completed their **Project Work on Management Information Systems (MIS)**. This milestone required students to apply IT to optimize business decision-making and organizational efficiency. By developing MIS frameworks, students reflected their ability to integrate data-driven strategies with core management functions to solve modern corporate challenges.

The defense highlighted a deep understanding of how information flows drive competitive advantage in digital economy.

## BBA 6th Semester Students' Defense of Summer Project

November 6, 2025: **BBA 6th-semester** students defended their **Summer Project**. By presenting methodologies and conclusions, students demonstrated academic proficiency and a capacity for critical inquiry into contemporary business issues.

The presentations spanned diverse sectors—including finance, marketing, and

organizational management—reflecting a comprehensive application of the BBA curriculum. This defense validates the students' research capabilities and prepares them for the advanced analytical challenges of their final year and future professional careers.

## BBA 5th Semester Students Conduct Industrial Visit to United Plastic Factory

November 7, 2025: **BBA 5th-semester** students participated in an industrial visit to the **United Plastic Factory** in Butwal. As a practical extension of the **Operation Management** course, students observed large-scale manufacturing, supply chain logistics, and quality control systems in action. By exploring the production floor, students gained firsthand insights into how operational strategies and inventory management are implemented in the industry.

The visit bridged the gap between classroom theories of process design and the technical complexities of the plastics industry. Students engaged with industry experts to discuss plant layout efficiency, safety protocols, and sustainable manufacturing practices.

## BCA 5th Semester Students Conduct Educational Visit to Hetauda

November 11, 2025: **BCA 5th-semester** students traveled to **Hetauda** for an educational visit focused on **Data Communication and Computer Network (DCCN)**. The trip provided practical exposure to large-scale network infrastructures and industrial communication systems. By observing real-world network configurations and data centers, students gained a deeper understanding of how theoretical protocols and hardware architectures support high-speed regional connectivity.

The excursion effectively linked classroom learning with the technical complexities of modern telecommunications. Students engaged with network administrators to discuss security, signal transmission, and the maintenance of strong communication links.

## BBA 7th Semester Students depart for Refreshment Tour

November 12, 2025: **BBA 7th-semester** students departed for **Refreshment Tour** to **Pokhara, Mustang, Ghandruk, and Manakamana**. This excursion is designed to broaden academic perspectives by exploring diverse geographical landscapes and regional economic activities. By visiting these places, students observed the intersection of tourism management, local entrepreneurship, and sustainable development practices within Nepal's prominent commercial and cultural circuits.

The tour served as a transition from classroom theory to real-world observation, letting students to analyze the logistical and operational challenges of the hospitality and service industries.

## BCA 5th Semester Students Conduct Educational Visit to Lumbini

November 13, 2025: **BCA 5th-semester** students visited **Lumbini**, a UNESCO World Heritage site. Beyond its cultural significance, the visit offered students a unique opportunity to observe the integration of technology in heritage preservation and large-scale tourism management. Students explored the digital systems utilized for site monitoring, visitor analytics, and the information frameworks that support this global pilgrimage destination.

The excursion provided a broad perspective on how IT facilitates the management of complex international sites.

## Team Rise Chetna Secures Championship at Skill Spark 2025

November 17, 2025: **Team Rise Chetna** achieved a significant landmark by emerging as the **Champion of the Skill Spark Championship 2025**. Hosted by **LBEF College**, this national-level competition brought together top talent to expose innovative solutions and technical proficiency. Team Rise Chetna's victory highlights their ability to navigate complex challenges, indicating the high caliber of talent fostered within institution.

The team's success is an evidence to their persistent hard work, innovative thinking, and outstanding collaborative performance. By setting a new benchmark for excellence, they have not only brought pride to the college but also inspired their peers to pursue competitive academic and professional growth.

## BBA Students Attend Financial Planning Session

November 17, 2025: **BBA students** participated in an insightful guest lecture on **Financial Prospects and Strategic Planning**. The session was facilitated by **Mr. Karna Thapa** of NCA College, Kathmandu, a distinguished expert in financial management. This academic engagement focused on the evolving landscape of global finance, providing students with a framework for analyzing market trends and developing institutional strategies.

Mr. Thapa provided professional insights into strategic decision-making in today's volatile economy. By engaging with these advanced concepts, students have refined their analytical skills, better preparing for leadership roles in the competitive corporate and banking sectors.

## Induction cum Socialization Program at Thakurdwara, Bardiya

November 28, 2025: **The college hosted** an Induction cum Socialization Program at Thakurdwara, Bardiya for a newly enrolled students of Bachelor level. The event was graced by Prof. Dr. Hemraj Pant (former registrar of FU), Managing Director of the college Mr Shivahari Shrama Mudbhari and principal of the college Prf Dr Prem Bdr Chand, whose keynote address provided vital academic direction and inspiration for the students. This program served as a formal introduction to institutional values, fostering a sense of community and shared purpose as students begin their technical education.

By blending academic orientation with social engagement in the serene environment of Thakurdwara, the program encouraged strong team work and professional aspirations.

## BE Computer 7th Semester Students Commence long Tour

December 2, 2025: **BE Computer 7th-semester** students departed for a multi-destination **Tour to Pokhara, Mustang, and Manakamana**. This excursion integrates academic learning with regional exploration, offering a broader perspective on Nepal's diverse geographical landscapes. As students transition into their final year, the journey provides a unique opportunity to observe IT applications in remote infrastructure and the growing digital footprint within the tourism sector.

The tour fosters peer collaboration and personal growth through shared experiences in Nepal's iconic locations.

## Annual Sports Week 2025 Commences

December 17, 2025: **The institution inaugurated its Annual Sports Week.** This week-long event provided a platform for students to present athleticism, teamwork, and competitive spirit across various indoor and outdoor games. The opening ceremony emphasized the value of physical well-being and sportsmanship, setting a dynamic tone for the matches and track events scheduled throughout the week.

The event is to develop companionship and healthy competition among students from different houses. Participation in organized sports helps students cultivate leadership, strategic thinking, and resilience.

## NAST Secures Runner-Up Position in Inter-College Debate Competition

December 28, 2025: **Students** earned the **Runner-Up position** in the **Inter-College Debate Competition** organized by **Amity College, Mahendranagar**. Competing against various institutions, our debaters exposed their rhetorical skills, logical reasoning, and a profound grasp in the topic. This achievement underscores the high standard of intellectual discourse and critical thinking cultivated within our academic community.

The competition provided a premier platform for students to refine their public speaking and persuasive communication. This success reinforces the value of extracurricular engagement in developing the analytical and leadership traits essential for professional excellence.
